## Ice Cream Cone

**Materials Needed:** 2-cupcake liners/baking cups, background paper any color, jewel stickers, markers and glue stick

Draw a large triangle on the top middle of your paper. Turn your paper so that your triangle is now upside down and looks like a cone! Color in your cone.

Glue cupcake liners on top of your triangle to look like ice cream scoops! If you are using mini cupcake liners/baking cups then you might be able to have more than 2 scoops!

Use jewel stickers for sprinkles or draw little dots and circles with your markers. I did a little bit of both!
